

## EZO™ Sensor Extension Cable

**Cable Length** 2.1 Meters (7.5')

### Sensor Compatibility

<b>EZO-RGB™</b>	Embedded Color Sensor
<b>EZO-CO2™</b>	Embedded Carbon Dioxide Sensor
<b>EZO-O2™</b>	Embedded Oxygen Sensor
<b>EZO-HUM™</b>	Embedded Humidity Sensor
<b>EZO-PRS™</b>	Embedded Pressure Sensor
<b>EZO-PMP™</b>	Peristaltic Pump
<b>EZO-PMP-L™</b>	Large Peristaltic Pump

### Connection

## EZO™ Sensor Extension Cable

### Data compatibility UART and I2C

Caution when using this product for I2C communication.  
The I2C data protocol has a limited transmission length of **~3.6 meters**.

## EZO<sup>™</sup> Sensor Extension Cable

As you approach or exceed the I2C cable limit, you will need to adjust your pull-up resistors to get a good square wave, this is best done with an oscilloscope.

Normal

Getting bad

From bad to worse

To learn more about the I2C protocol visit <https://www.i2c-bus.org/>
